

# Enhanced Language Training (ELT) for Engineers, Engineering Technicians and Technologists

**Skills for Change**  
Diversity at Work™

If you are an Engineer, Engineering Technician or Technologist, our **Enhanced Language Training (ELT)** program helps you raise your English proficiency and supports you in finding work in related fields.

## Program Components

### Language Instruction and Job Search Components

- Improve your listening, speaking, reading and writing skills
- Increase your technical vocabulary
- Work on English grammar and pronunciation
- Enhance participants knowledge of Canadian workplace and overall cultural understanding

### Job Search and Developmental Support

- Work directly with a Job Developer to find employment or a Work Experience Placement
- Work through a Mentoring Facilitator to find a Mentor with same or similar work background

### Application Requirements

- You are an internationally educated Engineer, Engineering Technician or Technologist
- Your level of English proficiency is preventing you from finding the position you deserve
- You need Canadian work experience
- You are either a permanent resident or a convention refugee
