

AutoCAD Level 2D–3D Design and Drafting

Skills for Change
Diversity at Work™

TechSkills offers only instructor-led classes. Our classes are limited in size so you have more hands-on interaction with the instructor. We provide experienced instructors, quality training materials and competitive pricing.

Intended for those interested, or already in, a career in engineering or graphics and for various technicians/technologists, this course will pave the way to sound knowledge, technical proficiency and expertise in developing technical design drawing.

You will learn developing and managing 2D and 3D drawings, modifying and formatting 2D and 3D objects, dimensioning, viewing and plotting, and trouble shooting.

Pre-requisites

Basic knowledge of computer fundamentals; Familiarity with operating systems and MS Office

Certificate offered

Participants receive a certificate of completion

Registration

Register in person, or online at www.skillsforchange.org/techskills/register
